## Pot Bearing Housings

### For Volkmann 06 - 09: New and Rebuild

#### REBUILDING POT BEARING HOUSINGS:

The customer's used assembly is disassembled, cleaned and inspected. Epic **always** replaces the felt sealing washer, upper needle bearing, nylon spacer bushing, lower outer race, and bearing cage. Any static parts that show wear or faults are also replaced. The rebuilt assembly is lubricated with Kluber synthetic grease.

The rebuilt pot bearing housings function "like new", at a significant savings to the customer.

Because it is good practice to replace the inner race on the upper spindle blade when replacing the bearing cage, a new inner race is also supplied with the rebuilt assembly.

OEM Ref.	Machine Model & Series	New Pot Bearing Housing	Rebuild Customer's Pot Bearing Housing
070793 908731	06 BA1-BA3	EE440024	EE402029
