SAFETY
FIRST!

EE380203 Cover, Safety for
Heavy Duty ICBT Creel Spring 94208300
\$2.73

Benefits of the Safety Covers:

- When creel springs break, it can be dangerous! People have been injured due to flying pieces of broken spring.
- Epic's new safety covers encapsulate the end of the creel spring. If the spring breaks, the broken end is prevented from becoming a missile hazard.
- As an added precaution, a shield cable connector can be purchased from your local supply store and threaded through the center of the spring (It should measure the length of the stretched spring and secured to both ends of the spring.)

Epic Enterprises, Inc.

Epic products are intended as replacements for worn or damaged parts in OEM products. OEM Part numbers in (parenthesis) indicate either 1) the part serves the same function as the OEM part, but may differ from the OEM design, or 2) it is a component of an assembly where no OEM reference number is available, or 3) it is a repair service for the referenced part.

Parts with EE designations are manufactured by Epic and are not authorized by the original equipment manufacturers.
