Mushroom Tension Capsules

For Volkmann BA3/BA4/BA5/BA6 Air Multi-Tension Devices

Superior Design Means Longer-Lasting Capsules

Exceptionally thick, hard chrome plating increases capsule life.

Laser-etched numbers are easy to read. No more grooves to count!

Ten different capsule spring tensions for BA3 and BA4.

Internal nylon stabilizer insures smooth operation with even tension from top to bottom—no more sticking or jamming. Stem tip provides a positive stop to prevent sticking caused by foreign material intrusion and excessive metal-to-metal contact.
