31 Flute
Chrome
(Fine Count)

EE402229
15 Dimple
Chrome

EE481201
14 Dimple
Bright Chrome
Plated

CHROME: Epic chrome shells generally provide excellent wear life when run with nylon, cotton, worsted, and most polyester yarns.

CERAMIC: Unlike plasma-sprayed shells that are prone to chipping, Epic's ceramic coated shells are chemically bonded and are much less prone to chipping.

Polypropylene yarns are very abrasive and generally require the hardness and wear resistance of the ceramic shell. Polyester yarns can also benefit from the ceramic shells.

For Saurer Allma:

EE900065
14 Dimple
Chrome

IMPORTANT Note: It is always good practice to convert a full machine to the same type of shell at the same time.

Epic offers most all of the PTU/Overfeed Assemblies for these shells. For more information contact Epic!

If you don't see what you need, then send us a sample and we will get back to you. New products are always cooking at Epic.
